SUMMARY

An accomplished software engineer and architect with a passion for leadership, security, systems, and mentoring. I seek out challenges as opportunities for growth, handle ambiguous situations well, and can break down complex problems into creative solutions with actionable tasks.

I am seeking a challenging senior technical or leadership role at a forward-thinking company.

TECHNICAL STRENGTHS

Computer Languages	Go, Python, Bash, SQL, Perl, \LaTeX
Operating Systems	Linux (CentOS, Gentoo, Ubuntu), OS X

EXPERIENCE

Squarespace	Dec 2017 - Mar 2020
<i>Senior Software Engineer</i>	<i>Remote</i>

- Successfully kept services online during the traffic spike from our annual Super Bowl ad.
- Architected and built a black box caching system for all customer websites; increased responsiveness from the CMS and reduced the number of requests to the application by 60%, in turn reducing HW requirements to run the platform. (Go, VCL, Python, Perl)
- Designed and built a system ensuring reliable broadcast of cache invalidation requests to all cache nodes. (Go, Java)
- Built a Varnish module to offload security operations onto the cache layer. (C)
- Managed the sunseting of early TLS support, including communication with stakeholders. (Java)

DreamHost	Oct 2014 - Aug 2016
<i>Senior/Lead Software Engineer</i>	<i>Los Angeles, CA</i>

- Leadership and Mentoring: Managed two direct reports. Involved in technical hiring.
- Architecture: Technical lead on the API2, Malware Remover, VPS-SSD, DreamPress 2 projects.
- Infrastructure: Automated system configuration for 50K machines using Chef and an in-house system.
- Core Dev: Major contributions to the foundations and billing of an old codebase (1997).
- Security: Post-exploit incident response. Reported several notable issues.

DreamHost	Jan 2011 - Oct 2014
<i>Software Engineer</i>	<i>Los Angeles, CA</i>

- Projects: Dedicated Servers, CafeCommerce
- Testing and CI: Created testing framework and practices, along with supporting CI processes.
- Git Transition: Significant contributor in transition from subversion to git.
- Research and Documentation: Created detailed documented how fraud detection systems worked.

DreamHost	Nov 2009 - Jan 2011
<i>Technical Support</i>	<i>Los Angeles, CA</i>

- At the time, DreamHost only hired graduates from Harvey Mudd College into the development teams.
- I joined into the Support team as a way into the dev teams, with the full support the VP of Support. (I was open and honest about this goal in the interview process.)
- Within 6 months, I was writing utilities for the support teams. A few months later, I was working 50% of the time with the dev team.

Page Provider*Systems Administrator*

Dec 2006 - Nov 2009

Rancho Cucamonga, CA

- Startup hosting provider.
- Built and deployed custom kernels and software for colocated customers.
- Provisioned, deployed, configured, and managed both servers and services.
